F. No. PTA/CA/CA-DTE/155/1/15-46/2021

May 2021

**Determination of Significant Market Power (SMP) Operators in Retail LDI Fixed-line Telecommunication Market in Azad Jammu & Kashmir (AJ&K) and Gilgit Baltistan (GB)**

**1. Background**

- 1.1. Pakistan Telecommunication Authority (the “Authority”) under section 4 (1)(d), section 4(1)(m) and section 6(e) of the Pakistan Telecommunication (Re-organization) Act, 1996 (the “Act”), the Azad Jammu & Kashmir Council Adaptation of Pakistan Telecommunication (Re-organization) Act, 2005 and the Northern Areas Telecommunication (Re-organization) (Adaptation and Enforcement) Order, 2006 (including amendment made from time to time) is mandated, *inter alia*, to; i) regulate competition in the telecom sector; ii) promote the availability of competitive telecommunication services; and iii) encourage fair competition in the telecommunication sector throughout Azad Jammu & Kashmir (AJ&K) and Gilgit Baltistan (GB).
- 1.2. In order to regulate the matters related to competition, Rule 17 (1) of the Pakistan Telecommunication Rules, 2000 (the “Rules”) provides that an operator shall be presumed to have significant market power when it has a share of more than twenty-five percent (25%) of a particular telecommunication market. The relevant market for these purposes shall be based on sectoral revenues.
- 1.3. Rule 17 (2) further provides that “the Authority, notwithstanding sub-rule (1) of the Rules, may determine that an operator with a market share of less than twenty-five percent of the relevant market has significant market power”. It may also determine that an operator with a market share of more than twenty-five percent of the relevant market does not have significant market power. In each case, the Authority shall take into account the operator’s ability to influence market conditions, its turnover relative to the size of the relevant market, its control of the means of access to customers, its access to financial resources and its experience in providing telecommunication services and products in the relevant market.
- 1.4. In line with the above-referred legal framework, the Authority initiated consultation with stakeholders and after detailed review, PTA vide letter No. 15-46/16(CA)/PTA/155/2006 dated 3<sup>rd</sup> October 2016 issued Determination on Relevant Markets and declared Significant Market Power (SMP) Operators in Azad Jammu & Kashmir (AJ&K) and

Gilgit Baltistan (GB). In the said Determination, Special Communications Organization (SCO) was declared as SMP operator in retail LDI fixed-line telecommunication market in AJ&K and GB.

1.5. The said SMP determination was challenged by Pakistan Mobile Communications Limited (PMCL) (Jazz) and Telenor Pakistan vide F.A.Os No. 111 of 2016 and No. 114 of 2016 respectively at the Honorable Islamabad High Court while PTCL challenged through Miscellaneous Appeal No. 46 of 2016 at Sindh High Court, Karachi. The Honorable Islamabad High Court vide its order dated 26<sup>th</sup> January 2018 remitted the matter to the Authority with a direction to decide the same after taking into consideration the procedural and statutory irregularities intimated by the appellants vis-à-vis Rules 17 and 26 of Pakistan Telecommunication Rules, 2000.

1.6. The Honorable Sindh High Court vide its order dated 21<sup>st</sup> February 2020 also disposed of PTCL's appeal in the following manner:

“This Misc. Appeal has become infructuous because a new determination of SMP is in the process....”.

## 2. Consultation Paper on SMP Review:

2.1. PTA issued a Consultation Paper (the “paper”) on identification of Relevant Markets and Significant Market Power (SMP) operators on 16<sup>th</sup> October 2019 and requested the stakeholders to furnish data, for the period covering from 1<sup>st</sup> January 2017 to 31<sup>st</sup> December 2017 and 1<sup>st</sup> January 2018 to 31<sup>st</sup> December 2018 in the prescribed formats given in the paper, so that total market size and market share of individual operators could be assessed for identification of relevant markets. Later on, the Authority also sought data for the period starting from 1<sup>st</sup> January 2019 to 31<sup>st</sup> December 2019. The paper proposed following products / services as well as geographic markets for the purpose of declaring as relevant markets:

S. No.	Relevant Markets	
	Product / Service Market	Geographical Market
<b>Retail Level Markets:</b>		
1.	Local Loop Fixed-line Telecom Market	3 Regions of AJ&K and GB
2.	LDI Fixed-line Telecom Market	AJ&K and GB
3.	Mobile Telecom Market	AJ&K and GB
4.	Retail Fixed Broadband Market	AJ&K and GB
<b>Wholesale Level Markets:</b>		
5.	Domestic Leased Lines Market	AJ&K and GB
6.	Call Transit Service Market	AJ&K and GB
7.	Broadband Access Market	AJ&K and GB
8.	IP Bandwidth Market	AJ&K and GB
9.	Individual Fixed Interconnection Market	AJ&K and GB
10.	Individual Mobile Interconnection Market	AJ&K and GB

## **2.2. Retail LDI Fixed-line Telecommunication Market:**

2.2.1. The Authority in its consultation paper proposed retail LDI fixed-line telecommunication market as a relevant market and defined as provision of long distance and international call services on national basis to end-users.

2.2.2. For the purpose of determining the total market size and the market share of a particular operator in retail LDI telecommunication market, only the revenues from licensed LDI Telecommunications services are taken into account. Such revenues may include call charges for long distance and international outgoing calls, whether collected from the customers directly or from other operators (excluding call transit charges). Revenues generated from calling cards (if any) shall also be considered while assessing the market share. However, revenues from international incoming calls are not included in the total revenue base.

## **3. Hearing held on 23<sup>rd</sup> February 2021:**

3.1. PTA vide its letter No. 15-46/14(CA)/PTA dated 12<sup>th</sup> February 2021 issued Hearing Notice to all Local Loop (LL), Long Distance and International (LDI), and Cellular Mobile Operators (CMOs) for finalizing "Determination on Relevant Markets and Significant Market Power (SMP) Operators in Azad Jammu & Kashmir (AJ&K) and Gilgit Baltistan (GB)". In order to proceed further, the matter was fixed for hearing before the Authority on 23<sup>rd</sup> February 2021. The representatives of Local Loop (LL), Long Distance and International (LDI), SCO, and Cellular Mobile Operators (CMOs) attended the hearing on the said date.

3.2. It is relevant to point out that despite sharing the draft determination, no response/comments have been received from the concerned operators within the stipulated time. In such circumstances and in light of available record, relevant market and SMP operators are being declared/determined in the Retail LDI Telecommunication Market in Azad Jammu & Kashmir (AJ&K) and Gilgit Baltistan (GB).

## **4. The Relevant Market and SMP Operator:**

### **4.1. Retail LDI Fixed-line Telecommunication Market:**

4.1.1. For the purpose of declaring SMP Operators, the entire telecom market of AJ&K and GB is divided into different relevant markets on the basis of (i) geographical area and (ii) products / services offered in that particular market segment. Geographical market is based on the area where an operator is authorized to operate under its respective licenses.

4.1.2. As per the available data submitted by the operators, SCO is still the dominant operator in terms of revenues generated from LDI segment. Market share of SCO in terms of sectoral revenues is given in the following table:

Operator	Table-1 Revenue Market Share	
	2018	2019
SCO	85%	81%

4.1.3. As evident from the above, SCO's market share is in the range of 81% to 85% for the period 2018 to 2019. It is pertinent to highlight that Rule 17 (1) states that an operator shall be presumed to be an SMP operator if it has more than 25% market share. In the instant case, SCO has more than 25% market share based on sectoral revenues.

4.1.4. Regarding Rule 17(2), it is evident that SCO being an incumbent operator has the ability to influence market conditions in terms of retail prices. Furthermore, SCO's turnover relevant to size of the relevant market as already been provided in Table -1 which clearly indicates that it has the control and ability to negatively or positively disrupt the market.

4.1.5. Keeping in view the foregoing, retail LDI fixed-line telecommunications market is identified as relevant market for the purpose declaring SMP operators.

## 5. The Authority's Determination of Relevant Markets and SMP Operators:

5.1. After detailed analysis and deliberations, the Authority hereby determines the relevant markets (Product / Services Market and Geographical Market) and declares SMP operators / licensees in the relevant market as under:

Relevant Markets			SMP Operator
Product / Service Market	Geographical Market		
<b>Retail Level Market(s):</b>			
Retail LDI Fixed-line Telecommunication Market	AJ&K and GB		SCO

5.2. SCO is hereby declared as SMP operator in AJ&K and GB *at para 5.1 above*, in retail LDI fixed-line telecommunication market and directed to comply with the obligations and all other regulatory requirements, notifications, decisions and directions of the Authority issued from time to time.
